

Stableford & Modified Stroke.

How to score. Each player in the above divisions is responsible for filling out a score card you must do the below as the player with minor assistance.

1. Check your score with your playing partner "marker" at the end of each hole and finally sit down to finalize at the end of the round.
2. Once you and your playing partner "marker" are happy the score is correct, sign your card and check the following:
 - Your **Full Name** is written in allocated 'Player's box'.
 - Your **Markers Full Name** is written in 'Marker's box'.
 - The date and event name are written 'date box' 'venue box'.
 - Your Score is written in the 'results box' **at the top of your card.**
 - Double check that both you and your marker have **signed the card.**

Stableford Players.

- Check your allocated **Handicap** is written on your card in the box provided.
- Check your **Stableford points** have been written and added up in the total box next to stroke score.

Once your score card is filled out with all above steps ticked off give straight back to GolfWA staff at the registration table.

Use the miscore app if you need further assistance - **Golf scorecard and GPS**

MiScore provides Australian golfers with a method of digital scoring for Stableford, Par, Stroke, or Best Ball competitions. Login to your home club and submit gross scores as a marker while tracking your pace of play and viewing GPS distance from the pin.

Stableford scoring assistance next page.

How to score for stableford players

The number of strokes a player is to receive on each hole is calculated based on the difficulty of the hole or **stroke index** on the card. e.g., If a player has a 22 handicap, then they would receive 1 stroke each hole and an additional stroke for stroke indexes 1-4, the four hardest holes (total 22 strokes).

Before starting your round, it is best to look at the stroke indexes to determine how many over par '**your par**' is for each hole. You can write in the stroke index box how many extra shots you are over par.

Your handicap is used with the **stroke index** of each hole to determine 'your par' for the hole.

Points are awarded as per the below based on your stroke score to 'your par'.

(Double Bogey or worse - 0 points) (Bogey - 1 point) (Par - 2 points) (Birdie - 3 points) (Eagle - 4 points) (Albatross - 5 points)

Example: An 18-handicapper received 1 shot over par on every hole. Therefore, a par 4 will be 'your par' 5. If that player has 5 shots on the hole, 2 points are awarded, 4 shots = 3 points.

Once a player can no longer score any points for a hole then they should pick their ball up and move onto the next hole and you can record a wiper. A dash is placed on the scorecard in place of the result scoring section of your card.

Record your strokes played and points on your card on the way round the

golf course, then after the 9 holes move to the scoring table after the round and ensure that the points are correct between the player and marker on both cards then **sign** the card and bring it to the results table where the score will be checked and finalised.
